SUMMARY

DevOps-focused Release Engineer with 4+ years of experience managing CI/CD pipelines and production release lifecycles within a large financial institution. Hands-on experience with Infrastructure as Code (Terraform) and AWS cloud architecture through independent projects.

EXPERIENCE

Configuration Specialist

Toronto, ON

Scotiabank

Feb 2026 - Present

- Directed end-to-end CI/CD deployment pipelines across QAT and Production, scaling to 100+ combined release cycles per month during peak periods with consistent validation and rollback readiness.
- Administered Git and Azure DevOps CI/CD pipelines, standardizing build packaging, promotion workflows, and version control.
- Resolved production incidents by analyzing logs and monitoring dashboards, driving root-cause fixes and controlled rollbacks.

RPA Configuration Analyst

Toronto, ON

Tech Mahindra Ltd. (Client: The Bank of Nova Scotia)

April 2022 - Jan 2026

- Deployed and managed production automation workloads across QA and Production, handling scheduling, validation, and rollback execution.
- Sustained 99.5% uptime across 50+ production systems through proactive monitoring and rapid issue resolution.
- Migrated 160+ production workloads to Windows Server 2019, minimizing downtime and ensuring seamless continuity.

PROJECTS

The Cloud Resume Challenge – AWS
